- I love data!
- and math!
- and programming!

Further Proof

Further Proof 2

Benzene Rings

DNA
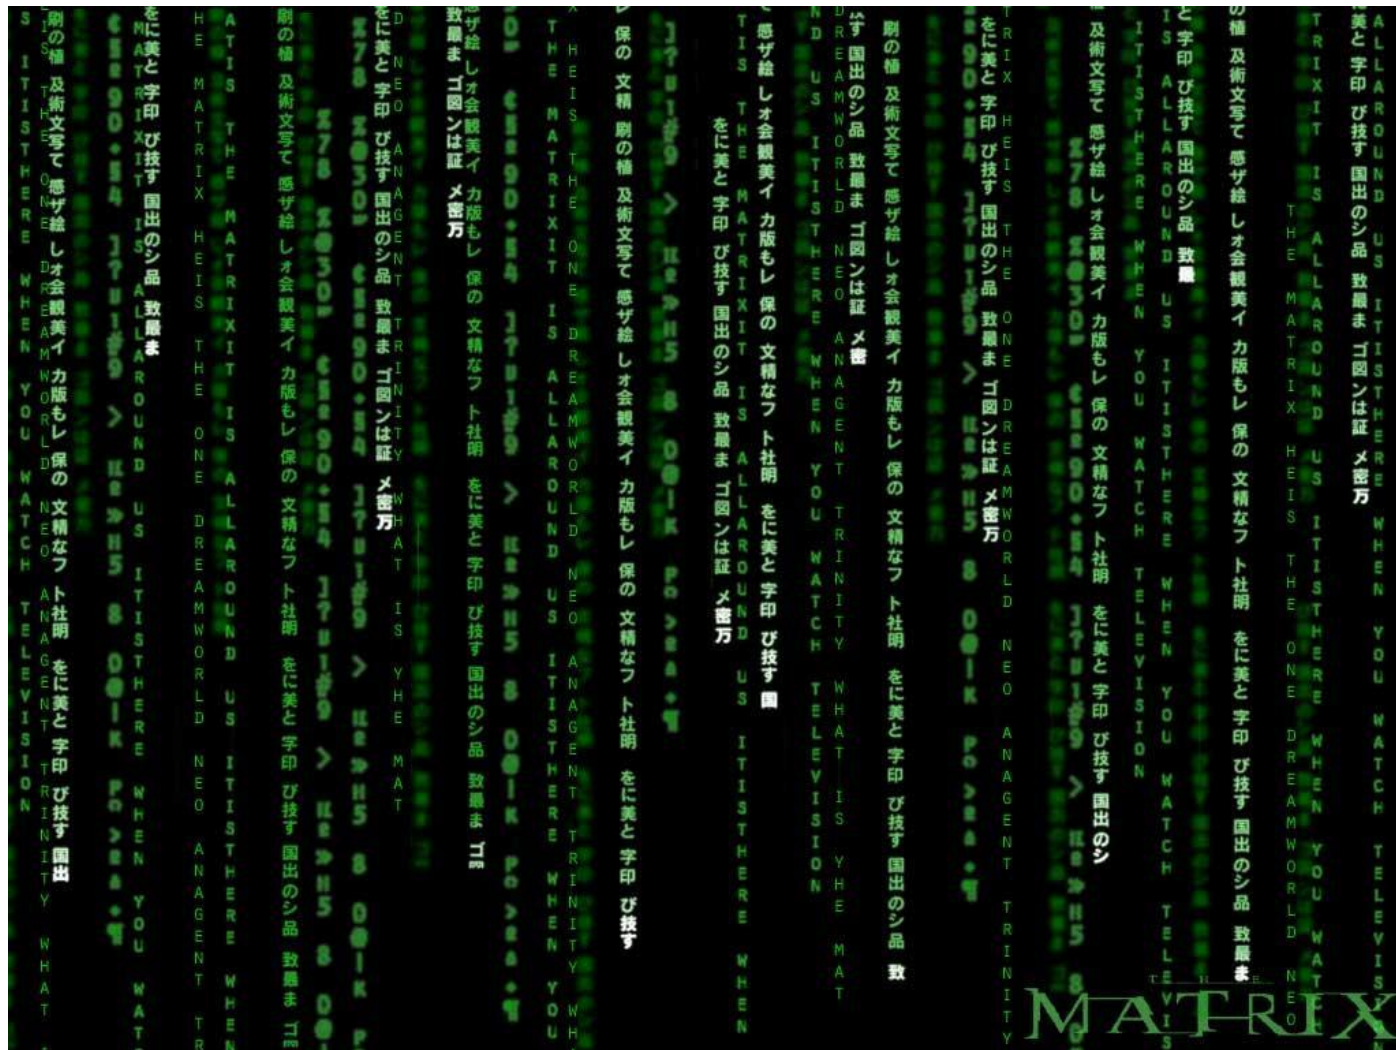

My wedding date in binary

Shameless Plug

My wife, PhD Student in Neurobiology

Okay, enough of that

What kind of stuff do I do?
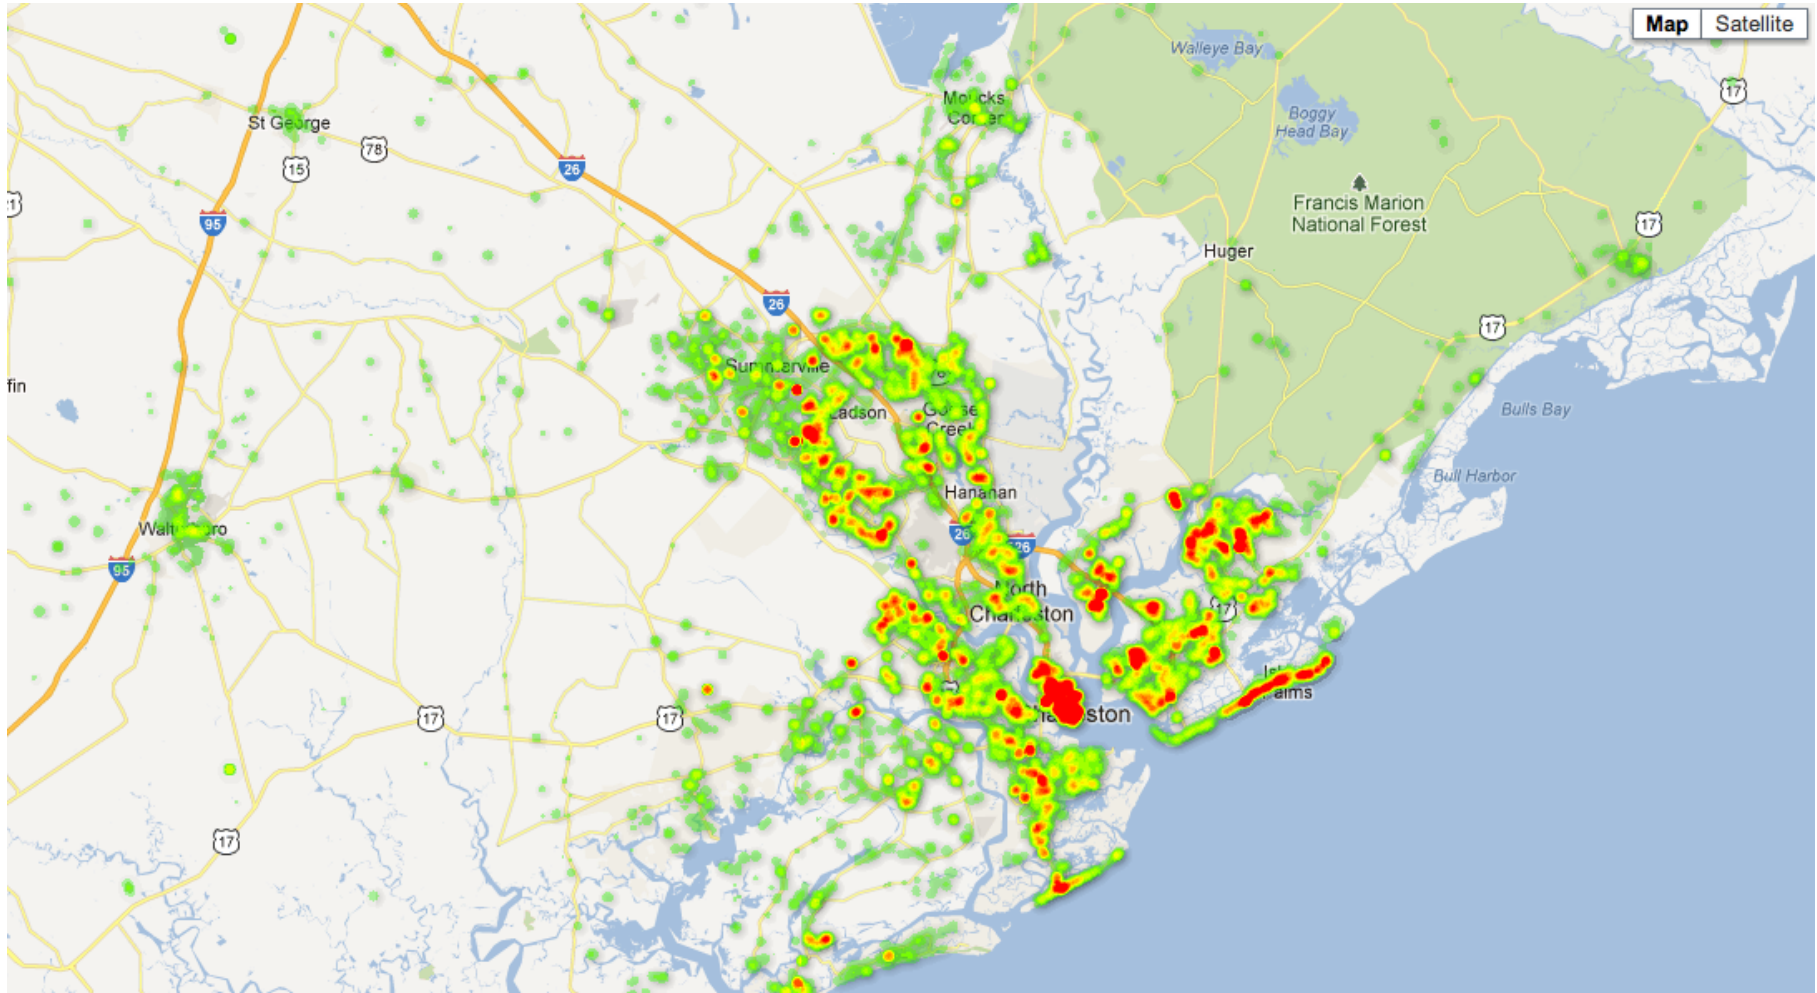

Anybody remember this?

Okay that's not really what I do.

Visualization of data

How about this?
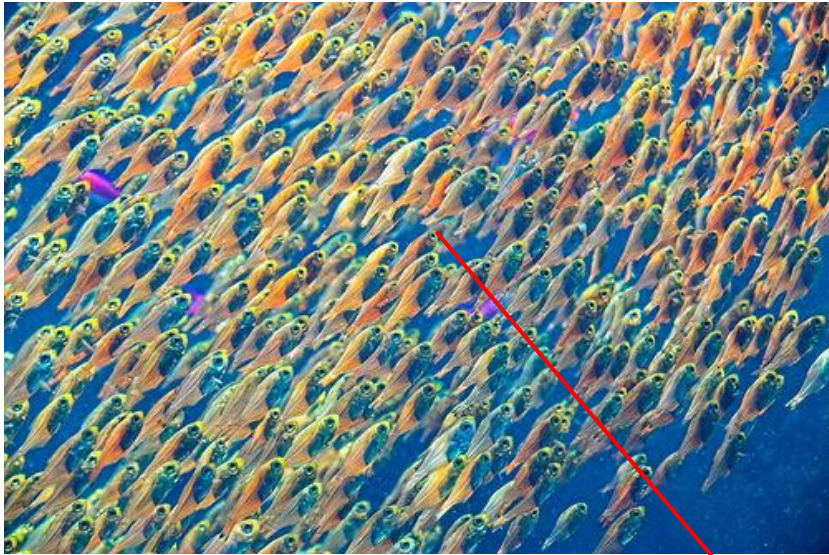

The fun stuff

Top notch product.

with a little bit of:
- Data Analytics
- Behavior analysis
- Machine learning
- Visualization

More of the above every day, and all right here in Charleston.

So why here?

V.S.

You

Silicon Valley is great but..

When you're surrounded by people like you.

You miss great opportunities to build things for everyone else!

Problems can be big opportunities

Resources are at your fingertips.

You can work from anywhere, with anyone

Go forth and prosper
